CHENIN BLANC

Chenin Blanc is a white wine grape variety from the Loire Valley of France. Its high acidity means it can be used to make everything from sparkling wines to well-balanced dessert wines, although it can produce very bland, neutral wines if the vine’s natural vigour is not controlled. Outside the Loire it is found in most of the New World wine regions; it is the most widely planted variety in South Africa, where it is also known as Steen.

### RED BLENDS

By blending red wines, a winemaker seeks to create a complex wine with multi-layered flavours. Unlike in the Old World, where there are often restrictions on which wines go into specific blends, in South Africa, our wineries have the freedom to experiment and explore. Still, you’ll find wonderful examples of traditional red-style blends (such as Bordeaux and Rhone) in this category, as well as the slightly more unconventional Cape blends, with a Pinotage component, and more.

### PINOT NOIR

Traditionally associated with Burgundy in France, Pinot Noir is a lighter (in colour and style) red wine, with less tannins and a softer mouthfeel. For flavour, think strawberries, cherries, liquorice, mushrooms, and earthiness. This difficult grape loves cooler climates and excels in the Elgin and Hemel en Aarde Valleys.

SHIRAZ

This variety from the warmer Rhone Valley in France works well in South Africa’s similar Mediterranean climate. Shiraz is also known as Syrah. Syrah is a more Old World style wine that is elegant and leaner, while Shiraz is associated with bold, fruit forward New World characteristics. In South Africa, Shiraz tends to have flavours of black cherries and plums, spice and pepper, as well as smoked meats.

Stellenbosch    KLEIN DASBOSCH SHIRAZ
Concentrated flavours of black pepper, raspberry & liquorice

Stellenbosch    GUARDIAN PEAK SHIRAZ
Superb red fruit aromas of raspberry and plum are supported with hints of black cherry and cedar. There is a subtle fynbos undertone that backs up the medium to full mouthfeel. This wine has a nice firm structure, with a lengthy red fruit finish

Stellenbosch    WATERFORD KEVIN ARNOLD SHIRAZ
Vibrant dark fruit, earthy and clove pepper spice with soft liquorice undertones. Excellent

MERLOT

With softer tannins than its Bordeaux partner Cabernet Sauvignon, Merlot is an easy-drinking variety that is widely grown in South Africa. The wine has strong red fruit notes – think cherries, plums, red berries and even fruitcake. Certain Merlots will have a herbal aroma, and still others are fuller, with flavours of coffee and chocolate. Merlot is very often used in red blends.

Franschhoek    LEOPARDS LEAP MERLOT
Predominant dark fruit flavours - rich notes of chocolate & cedar wood

Stellenbosch    GUARDIAN PEAK MERLOT

PINOTAGE

South Africa’s very own grape variety is a cross between Pinot Noir and Cinsaut dating back to the 1920s. With flavours of plums, black cherries, spice and hints of smoke, Pinotage is a great match around the braaivleis or with tomato-based meals like pizza and pasta.

Stellenbosch  KLEINE ZALZE PINOTAGE         54  215
Hints of red fruit with floral tones and hints of lavender – elegant tannin structure

Stellenbosch  SIMONSIG PINOTAGE                70   272

CABERNET SAUVIGNON

The King of Grapes is the offspring of Cabernet Franc and Sauvignon Blanc and gained recognition through its prominence in classic wines from Bordeaux. Cabernet Sauvignon is a bold grape: dense, dark and tannic, it gives off flavours and aromas of dark berries, cigar box, pepper and eucalyptus. South Africa’s Stellenbosch region produces many fine versions of this single varietal.
